CLOSED-CELL SPRAY FOAM

## FOAM-LOK™ 2000

CLOSED-CELL SPRAY FOAM

FOAM-LOK 2000 is a lightweight, durable, versatile insulation solution ensuring the highest performance in energy efficiency and energy cost savings. Closed-cell spray foam insulation systems, when properly installed, deliver energy savings of up to 40%.

The solid structure of FOAM-LOK 2000 seals the building envelope, providing an air barrier, thermal barrier and moisture barrier with excellent resistance to water. The density of closed-cell spray foam is approximately two pounds per cubic foot. The medium density foam provides sheer and racking strength to wall assemblies in building applications.

### WHY FOAM-LOK SPRAY FOAM INSULATION?

With exceptional energy efficiency performance, FOAM-LOK 2000 exceeds today's building code requirements. Achieve required R-values utilizing 2" x 4" construction, eliminating the expense of 2" x 6" framing. One product offering multiple solutions helps reduce labour costs and stay on schedule.

FOAM-LOK 2000 is the optimal solution for new construction or retrofit applications in both residential and commercial buildings.

### WHY FOAM-LOK SPRAY FOAM INSULATION?

- Improves energy efficiency
- Proven durability
- Maintains consistent temperatures
- Firm adherence to framing members and substrates
- FEMA-approved flood resistant insulation material
- Reduce HVAC size
- Achieve Net Zero Energy and Passive House Design
- Effective insulation for all climate zones

### PROTECTION IN ANY CLIMATE

Huntsman Building Solutions FOAM-LOK 2000 Spray Foam Insulation technology is an effective insulation system to seal, protect and insulate structures. FOAM-LOK 2000 spray foam insulation is a fully adhered seamless barrier against the harshest of environments.
