SEALECTION[®] 500

OPEN-CELL SPRAY FOAM

SEALECTION® 500

OPEN-CELL SPRAY FOAM

PRODUCT BENEFITS

- Ignition barrier free for unventilated attics
- Maintains performance throughout time and temperature
- Allows the use of smaller HVAC systems
- Minimizes outside noise
- Reduces dust and allergens

R-value	3.81 @ 1 inch
Density	1/2 lb/ft ³

CUTS ENERGY COSTS BY 50%*

Sealection® 500 is an easily applied, open-cell spray foam that provides an efficient lifelong building envelope. It is an industry-leading spray foam formula that expands 120 times its liquid volume to insulate and seal all cracks, gaps and joints with a single application. Sealection 500 is easy to install and finish, and has now been tested and certified for use in unventilated attics without a prescribed ignition barrier.

For more information, consult CCRR-1063 on the Huntsman Building Solutions website.

Complies with the International Building Code® (IBC), the International Residential Code® (IRC), and the International Energy Conservation Code® (IECC).
