SEALECTION[®] 500

OPEN-CELL SPRAY FOAM

SEALECTION® 500
OPEN-CELL SPRAY FOAM

CUTS ENERGY COSTS UP TO 50%*

Sealection® 500 is an easily applied, open-cell spray foam that provides an efficient lifelong building envelope. It is an industry-leading spray foam formula that expands 120 times its liquid volume to insulate and seal all cracks, gaps and joints with a single application. Sealection 500 is easy to install and finish, and has now been tested and certified for use in unventilated attics without a prescribed ignition barrier.

For more information, consult CCRR-1063 on the Huntsman Building Solutions website.

PRODUCT FEATURES

- Ignition barrier free for unventilated attics
- Maintains performance throughout time and temperature
- Allows the use of smaller HVAC systems
- Minimizes outside noise
- Reduces dust and allergens

R-value	3.81 @ 1 inch
Density	1/2 lb/ft ³

*Aged R-value at 4 inches per ASTM C518

*Source: HBS analysis report of a side-by-side comparison of two identical homes built by Habitat for Humanity; one installed with traditional fiberglass insulation by an anonymous donor, and one installed with HBS Sealection 500 spray foam insulation donated to Habitat for Humanity.

Complies with the International Building Code® (IBC), the International Residential Code® (IRC), and the International Energy Conservation Code® (IECC).
